TO WHOM IT MAY CONCERN

RECOMMENDATION LETTER

I am delighted to recommend Mr. Ashenafi Messele Gizaw, whom I have taught in several courses at the Department of Computer Science, University of Gondar. The courses I taught her include Computer Programming I, Microprocessor and Assembly Language Programming, and Computer Graphics. Throughout her studies, Mr. Ashenafi Messele Gizaw has distinguished herself as an outstanding and motivated student. She consistently demonstrated a strong commitment to academic excellence and a genuine interest in computing and technology. Her performance in programming exercises, laboratory activities, and coursework was exemplary, reflecting both technical proficiency and perseverance. Mr. Ashenafi Messele Gizaw possesses excellent problem-solving and analytical skills. She approaches challenges with determination and creativity and consistently produces high-quality work. Her ability to grasp complex concepts and apply them effectively in practical settings is particularly impressive. Beyond her academic strengths, she is responsible, respectful, and highly professional in her interactions with instructors and fellow students. She exhibits strong leadership potential, excellent communication skills, and a positive attitude that contributes significantly to the learning environment. Based on my experience working with her, I am confident that Mr. Ashenafi Messele Gizaw will excel in any academic program, scholarship opportunity, internship, or professional position she pursues. I therefore recommend her wholeheartedly and without reservation. Please do not hesitate to contact me if additional information is needed.

Regards,
